

Scale World 2012

Dear Modeling friends,

This year we have celebrated the 15th anniversary of our modeling club, the KMK, and I think we can say it was a success! On 2500 square meters, divided over 3 halls, we had 355 meters trading stands and 205 meters club stands, both national and international. This way we were able to offer the visitors the opportunity to see all the latest novelties on the market and to buy all their modeling needs. Throughout the day, 8 international special guests demonstrated their modeling skills to the public. The modeling contest tables were filled with beautiful entries, and we had the honor to welcome more than 2500 visitors from all over Europe.

The year 2011 is nearing its end, and we are already working hard on the preparations for the Scale World 2012 edition. Next year we want to organize again a modeling exhibition which will be as good as the previous editions of Scale World, or even better! In recent years we have seen Scale World increasing both in quality and in quantity. In 2012 we want to offer the visitors again the opportunity to enjoy a good show with a variety of traders, clubs and special guests.

To realize this, we want to invite you as one of our clubs to ensure Scale World 2012 will be as successful as it was this year. Our main goal is to promote our wonderful hobby in a relaxed and familiar atmosphere.

In addition to the info which will soon be published on our website, we already want to provide you with some extra information to ensure a pleasant stay at Scale World 2012. Of course there will be, as in previous years, free coffee and tea for traders and clubs until Scale World 2012 opens its doors for the public at 10 hours.
